# 1 Learning Objective(s)

## 1.1 Textbook Learning Objectives

- Define and distinguish between the three domains of development: physical, cognitive and psychosocial
- Discuss the normative approach to development
- Understand the three major issues in development: continuity and discontinuity, one common course of development or many unique courses of development, and nature versus nurture
- Discuss Freud's theory of psychosexual development
- Describe the major tasks of child and adult psychosocial development according to Erikson
- Discuss Piaget's view of cognitive development and apply the stages to understanding childhood cognition
- Describe Kohlberg's theory of moral development
- Compare and contrast the strengths and weaknesses of major developmental theories
- Describe the stages of prenatal development and recognize the importance of prenatal care
- Appraise physical, cognitive, and emotional development that occurs from infancy through childhood
- Compare and contrast physical, cognitive, and emotional development that occurs during adolescence
- Examine physical, cognitive, and emotional development that occurs in adulthood

## 1.2 Instructor Learning Objectives

- Be able to identify key characteristics and ideas from the different developmental theories
- Be able to connect the different theorists to their views and perspectives
- Be able to apply the different developmental stages, given a specific age in an example

# 2 Assessments
