# 1 Learning Objective(s)

## 1.1 Textbook Learning Objectives

- Explain how scientific research addresses questions about behavior
- Discuss how scientific research guides public policy
- Appreciate how scientific research can be important in making personal decisions
- Describe the different research methods used by psychologists
- Discuss the strengths and weaknesses of case studies, naturalistic observation, surveys, and archival research
- Compare longitudinal and cross-sectional approaches to research
- Compare and contrast correlation and causation
- Explain what a correlation coefficient tells us about the relationship between variables
- Recognize that correlation does not indicate a cause-and-effect relationship between variables
- Discuss our tendency to look for relationships between variables that do not really exist
- Explain random sampling and assignment of participants into experimental and control groups
- Discuss how experimenter or participant bias could affect the results of an experiment
- Identify independent and dependent variables
- Discuss how research involving human subjects is regulated
- Summarize the processes of informed consent and debriefing
- Explain how research involving animal subjects is regulated

## 1.2 Instructor Learning Objectives

- Understand the critical role research plays in solidifying psychology as a science
- Understand the pitfalls and dangers of unethical research
- Be able to identify the core components and features of a described research design

# 2 Lecture(s) & Participation

- ☐ Attend SLA and class (based upon weather closures; watch Blackboard announcements)
- ☐ Watch Module 2 Lecture and Take Good Notes
- ☐ Participate in Module 2 Lecture Check-in due Jan 28 6pm
- ☐ Complete Quiz 1 on Blackboard due Jan 28 6pm

### 3 Reading(s)

*Under "Readings" in Blackboard Module*

☐

Read Chapter 2 of Textbook due Jan 28 6pm

### 4 Homework & Assignment(s) Due

*Under "Assignments" in Blackboard Module*

*No additional assignments this module*

### 5 Looking Ahead

☐

Quiz 2 Next Week - Covers all content from Module 2
